

## Java Full Stack Developer Job Description

**Position:** Java Full Stack Developer

**Location:** Hyderabad / Remote

**Employment Type:** Full-Time

### Position Overview

We are looking for an experienced **Java Full Stack Developer** to architect, develop, and deliver high-quality, scalable web applications. This role requires strong backend expertise in Java along with modern frontend development skills to build reliable, secure, and performance-driven solutions.

### Key Responsibilities

- Design, develop, and maintain full-stack applications using **Java, Spring Boot, and React**
- Build scalable backend services and **RESTful APIs**
- Develop responsive, accessible, and user-friendly interfaces
- Ensure application performance, security, and code quality
- Collaborate with product managers, designers, and DevOps teams
- Participate in architectural discussions and code reviews
- Troubleshoot, debug, and enhance existing systems

### Qualifications & Skills

- Strong proficiency in **Java, Spring Boot, Hibernate/JPA**
- Expertise in **React, JavaScript (ES6+), HTML5, CSS3**
- Solid understanding of **SQL databases**
- Experience with microservices architecture
- Familiarity with Git, CI/CD pipelines, and Agile methodologies
- Excellent problem-solving and communication skills

### What We Offer

- Competitive salary and performance incentives
- Long-term career growth opportunities
- Exposure to enterprise-scale systems
- Continuous learning and professional development
